

IN SCHOOLS FOR KIDS

The mission of Communities In Schools of the Dallas Region (CISDR) is to surround students with a community of support, empowering them to stay in school and achieve in life.

Here's how we empower all students to be successful:

- CIS staff works with students who have been identified as high-needs or at-risk based on academics, behavior and attendance.
- We use data to create individualized support plans and interventions - leveraging evidence, research, relationships and resources to drive results with each student.
- Working in schools, CIS helps create an equitable learning environment for all kids.
- Working outside of school, our staff helps address what schools often cannot: basic needs, mental health and advocacy.
- Through a strong network of support and partners, CIS is connecting kids to community resources - food, housing, school supplies, health care (mental and physical) and emotional support.
