

Overview of the USDA Smart Snacks Rule

Guidance for School Nutrition Professionals

Definitions

Competitive food

All food and beverages sold to students on the school campus during the school day, other than those meals reimbursable under the National School Lunch Program and the School Breakfast Program.

School campus

All areas of the property under the jurisdiction of the school that is accessible to students during the school day

School day

The period from midnight before to 30 minutes after the end of the official school day

A La Carte

Menu items sold individually and, therefore, not part of the school nutrition program's reimbursable meals

The Healthy, Hunger-Free Kids Act required the USDA to establish nutrition standards for competitive foods sold in schools. USDA's interim final rule "Nutrition Standards for All Foods Sold in School," is **effective July 1, 2014**. These science-based nutrition standards promote a healthy school environment and apply to all foods and beverages sold outside of the reimbursable school nutrition program meals, such as:

- A la carte cafeteria sales
- School stores
- Snack bars
- Vending machines
- Fundraisers

HOW WILL THIS IMPACT MY SCHOOL?

School Nutrition Program Revenue

This rule may impact school nutrition program revenue, depending on each school's current competitive food product selection and sales. A la carte items served as either an entrée or snack/side dish must meet the Smart Snacks standards, with the exception of NSLP/SBP entrée items that are sold a la carte the day of service or the day after service.

Beverages

Allowable beverages for all grades include plain water, low-fat (1%) milk (unflavored), nonfat milk (flavored and unflavored) and 100% fruit and/or vegetable juice. Although federal regulations allow high schools the additional flexibility to sell other flavored and/or carbonated diet and low-calorie beverages, including those that contain caffeine, the Texas Public School Nutrition Policy does not currently allow carbonated beverages of any kind. New state level guidance is forthcoming that will provide additional guidance.

Record-Keeping

School food operators are responsible for maintaining accurate documentation of foods and beverages sold through the nonprofit Child Nutrition account. Compliance will be assessed during the Administrative Review.

A Team Approach

The Smart Snacks standards apply to all foods sold in schools, including fundraisers. Food and beverages that meet Smart Snacks may be sold to raise funds for school sponsored events, clubs, and activities. Food and beverages that do not meet Smart Snacks **may not** be sold at any time during the school day. It is important to communicate with school leadership and staff, parent organizations, extracurricular groups, and the Local Wellness Policy committee. that sell food or beverages for fundraisers should be aware of these standards. A collaborative team approach can ensure compliance and promote a healthy school environment.

NUTRITION STANDARDS FOR FOOD

The following food items are exempt from all competitive food nutrient standards, and therefore may be sold:

- Fresh, canned or frozen fruits with no added ingredients except water or packed in 100% juice, extra light syrup or light syrup
- Fresh vegetables and canned vegetables with no added ingredients except water or sugar for processing
- **NSLP/SBP Entrée** items are exempt when they are sold on the day of service or the school day after service
- Sugar-Free Chewing Gum

All other food items must meet the following criteria, for all age/grade levels:

General Criteria (must be *one* of these 4 items)

1. Whole grain-rich (50% or more whole grains by weight or first ingredient whole grain); **OR**
2. Have as the first ingredient fruit, vegetable, dairy or protein (meat, beans, nuts, eggs etc.); **OR**
3. A combination food with at least ¼ cup fruit and/or vegetable; **OR**
4. Contain 10% of the Daily Value of one of the four nutrients of public health concern: calcium, potassium, vitamin D, dietary fiber

AND meet the following additional nutrient standards
