Will students in sped be given their assignments for the day at the beginning of the day or beginning of the week like everyone else?

In the spring my child would get assignments mid day assigned that were due by the end of the day and that happened throughout the week.

So the State has said that SpEd students who can't do virtual learning are to be provided in person. What is district doing about that? My child cannot do virtual learning without someone next to him or monitoring him at all times

Will there be monthly parent universities geared toward special education topics? Even if they are virtual, various topics should be offered for all sped parents. Surrounding districts host parent sessions monthly.

Will students in skill have the same guidelines as far as screen time that general Ed students have?

But with consideration with each student and what they can handle at a time or for the day.

Will students in skill still be provided with work packets if the family needs them like in the spring or will they only be given online assignments?

I would hope online assignments are catered to the abilities of my student.
