World War II Webquest

The purpose of this webquest is to help you get a feel for World War. The war took place in two arenas, or theaters, the Pacific with Japan, and Europe with Germany. This webquest does not attempt to sugar-coat what happened during this war. Some of the readings and pictures can be disturbing. If they bother you, just answer the question and move on. The point is that this was a war where millions of people were injured or killed. There is not a way to really soften the realities of war. To navigate through the webquest, you may need to use the back and forward arrows at the upper left hand side of your screen.

1. Read about the after-effects of World War I and the Treaty of Versailles
